

CLÉMENT ANDREANI

Full-Stack Developer

Épinay-sur-Orge, France | +33 6 14 24 72 77 | andreani.clement@gmail.com | itclmt.dev | GitHub: [@ITClmt](https://github.com/ITClmt) | LinkedIn: [clm-andreani](https://www.linkedin.com/in/clm-andreani)

Full-stack developer focused on building performant, maintainable, user-centered web applications with hands-on experience in fast-paced fintech and developing personal full-stack projects. Seeking a permanent position (starting September 2026) to keep growing on products with real impact.

PROFESSIONAL EXPERIENCE

Front-End Developer (Work-Study Program) — Bankin' Paris, France

Since August 2025

- Developed and maintained the entirety of Bankin's web platform
- Managed and developed an internal CMS built with React
- Built a browser extension for Chrome and Safari
- Collaborated closely with Product and Design teams in an Agile environment

Patient Transporter — Centre Hospitalier Sud Francilien Corbeil-Essonnes, France

Sept. 2019 – Aug. 2025

- Managed emergency situations and high-pressure environments effectively while supporting medical teams

EDUCATION

Application Designer & Developer Certification (RNCP Level 6 — Bachelor's equivalent) — O'Clock Remote Since Oct. 2025

- Software architecture: layered application design, microservices implementation
- Advanced front-end (React), back-end (TypeScript, Express, GraphQL) and SQL/NoSQL databases
- Deployment & quality: DevOps practices (Docker, CI/CD), automated testing, Agile/Scrum project management

Web & Mobile Developer Certification (RNCP Level 5 — Associate degree equivalent) — Wild Code School Remote Nov. 2024 – Apr. 2025

- Intensive full-stack web development training covering both technical and methodological skills

PROJECTS

Midi-Mealy — Personal Project — React/Tanstack Start, Tailwind, Supabase

- Restaurant search, geolocation and rating platform for coworkers near the office, with shared reviews
- Built "Company" spaces with role management (Managers/Employees) and access control

Digital Art Gallery — Wild Code School Project — TypeScript, React, Express, MySQL

- Built a full-stack web application

SKILLS

Front-End: ReactJS, React Native, TypeScript, Tailwind CSS
